

When we install your carpet, the only difference your office staff will notice is the carpet.

NO MOVING. NO DISRUPTIONS. GUARANTEED!

SAVE TIME AND MONEY

Carpet adds greatly to the beauty and atmosphere of any office building. But when it's time for replacement, the cost of relocating employees, disconnecting and reconnecting the complex electrical and communication equipment, and dismantling and moving the furniture can exceed the cost of the carpet itself. The planning involved for such a move requires a significant amount of your time to ensure a smooth transition.

NO DISCONNECTING OR MOVING

With **LIFT**, there is no moving of furniture or equipment. Our technology allows us to leave all furniture and wiring connections in place. We gently lift the furniture and equipment just high enough to slide out the old broadloom or modular carpet and replace it with new modular carpet. Then we lower the furniture and equipment back into place, dust and vacuum.

NO OPERATIONAL DISRUPTIONS

There are no operational disruptions because we work around your schedule, nights and weekends, so the only difference your employees will notice is new carpet underfoot.
