

# Hardwood Floors

**A durable, sustainable resource that will add warmth, beauty and long-term value to your interior environment**

*Pavilion Floors has the expertise that you need for the installation, sanding, and finishing of all types of pre-finished and unfinished solid hardwood, engineered and laminate flooring.*

## **AN ALMOST UNLIMITED CHOICE**

Today, hardwood floors are available in more species and styles than were ever available. Traditional oak, pine, bamboo and exotics are just a few of the varieties that designers are using today. Pavilion's hardwood flooring experts can guide you through the process of making the right choice for your requirements.

## **WHY USE HARDWOOD?**

When it is installed properly, hardwood can provide warmth and beauty to a space that cannot be easily matched. But there are some other important reasons. Concerns about indoor health quality is at an all-time high and when it is installed in offices and homes, hardwood flooring can help provide a healthier atmosphere. Hard floor surfaces can deter the growth of dust mites and other allergens that may cause respiratory problems.

Hardwood is also a sustainable, natural resource that is environmentally friendly.

Maintenance is easy, too! With modern, wear-resistant floor finishes, a light sweeping is all you need on a regular basis.
